

## Curriculum and Career Pathways

- “Even though I work in an academic library, I wanted to explore public and special library options. I was able to do that through the electives offered.”
- “I also enjoyed taking Spanish for Librarians, which really helped up my Spanish. I also really appreciated how the program stressed the importance of signing up for an internship or professional experience course. I took both an internship and spent a summer in Nicaragua working as a librarian, and it changed my life for all the right reasons. I never would have visited this country if it weren't for this program, and I am forever grateful.”
