JOB SEARCH TIP

Sending a thank you “note” is still customary to do after an interview. It is OK to send an email but be sure to do it within 24-48 hours. Thank the interviewer for taking the time to talk with you, reiterate something valuable you learned from the experience, and take this opportunity to express your continued interest in the position. Bonus tip: write, “I look forward to hearing back from you” versus “I hope to hear from you soon.” This small change sends a positive, enthusiastic, and confident tone.

CAREER WORKSHOPS
