We have one common goal at Tenet, and that is to provide excellent care to our patients. Through our extraordinary caregivers who come to work every day and save lives, deliver babies, and take care of people when they need it most, Tenet’s hospitals aim to provide the best possible care to every patient, with a clear focus on quality and service. Focusing on quality is how we build sustainable value and growth over the long-term. DRMC has provided a full range of quality medical care to one of the world’s most famous resort areas since 1951. Our 387-bed acute tertiary-care facility is fully accredited by the Joint Commission, the nation’s oldest and largest hospital accreditation agency.
